

MGTE 34213 - Managerial Finance

Group Assignment Guidelines

Title: Capital Budgeting for a Tech Infrastructure Investment

Objective

To evaluate the financial feasibility of a technology-related investment project using capital budgeting techniques such as **NPV**, **IRR**, **Payback Period**, and **Profitability Index**.

Assignment Brief

- Students are required to form 6-7 members group.
- Your group will act as the **financial planning team in a tech startup or IT department of an e-company**.
- Suppose the company is planning to undertake a major IT-related investment. (e.g. *Developing a new software product or mobile app, Upgrading company-wide hardware infrastructure, Launching a new data center or migrating services to the cloud., Implementing a cybersecurity system across a company's operations.*)
- For this you are required to:
 - **Define the project** scope and provide cost estimations (initial outlay, operating costs, expected revenues or cost savings).
 - Estimate **future cash inflows and outflows** for 5 years.
 - Assume a **discount rate / cost of capital**.
 - Evaluate the project using three investment appraisal techniques including Net Present Value (NPV) method.
 - Conclude with a **recommendation** on whether the investment should proceed.

Note: Your assumptions should be realistic.

Assignment Outcomes

1. Written report - Due on 12th April 2026

- Report Formatting Guidelines
 - Font: Times New Roman
 - Font Size: Headings: 12, Body Text: 11
 - Line spacing: 1.5
 - Margins: 1 inch from all the sides
 - Word Count: 1,000 – 2,000
 - Upload only the **PDF version** of your **report** to the LMS.

2. Presentation - Due on 12th April 2026

- The students should submit a recording of the group presentation by adhering to the guidelines below.

- Time duration: 15 minutes.
- All the students should be involved in the presentation.
- The video must be switched on throughout the presentation.
- The student number of the participants must be clearly visible.
- Marks will not be given for students who do not comply with any of the above requirements.
